Art Unit:

Claims 1-24 are presented for examination.

The amendments and remarks filed on June 3, 2002 have been received and entered.

Claim 18 is rejected under 35 U.S.C. 102 (b) as being anticipated by Wheeler et al. For the reasons set forth on page 2 of the office action of February 27, 2002.

Claims 1-17 and 19-24 are rejected under 35 U.S.C. 103 as being Unpatentable over Steinberg et al. And Sallman et al.

Steinberg et al. Teach the use of brimonidine and fibroblast growth factor for the treatment of diseases or conditions caused by the injury or death of retinal photoreceptors. See claim 15 and page 3, lines 7-20. The above reference makes clear that the brimonidine and growth factor have been previously used for the treatment of the conditions caused by the injury or death to the retinal photoreceptor. The addition of non-steroidal anti-inflammatory agents to brimonidine would have been obvious for the reasons mentioned in the office action of February 27, 2002.

Applicant's arguments and remarks have been carefully considered, but in view of the newly relied upon reference are not deemed to be persuasive.
